SUMMARY

I am a full-stack web developer with a passion for building intuitive and visually stunning applications. I have a solid foundation in front-end and back-end technologies and enjoy collaborating with cross-functional teams to bring projects from conception to deployment.

My experience includes coding, troubleshooting, and testing. I am also trilingual, speaking English, French, and Arabic.

SKILLS

Front-End: React, JavaScript, HTML5, CSS3

Back-End: Ruby, Rails, MySQL, Node.js

Tools & Methods: Git, GitHub, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools

Professional: Remote Pair-Programming, Teamwork, Mentoring

EXPERIENCE

Highlighted personal projects

Your New Game ([Live Preview](#) — [Source Code](#))

A game website where users can find information about the latest and trending games to stay up to date on what's hot in the gaming world.

Built with: (React, Redux, CSS, API)

- Implemented user interface employing React.
- Leveraged a third-party API, Rawg-API, to display comprehensive information for each game, including trailers, reviews, and ratings.
- Features a filter that allows users to easily search and filter games by name, platform, or genre.

Coffee Shop Website ([Live Preview](#) — [Source Code](#))

A website that I designed and build that allows the user to purchase coffee online.

Built with: (React, Redux, and CSS)

- Built a menu page that displays all the coffee options available for purchase.
- Built an order page that allows customers to select their items and customize their order with various add-ons such as milk, sugar, and other extras.

We Love Horses ([Live Preview](#) — [Source Code](#))

This is a website for a Horse Riding Club. It features a dynamic and user-friendly interface that allows visitors to view upcoming events, get more information about the club, and browse a list of equestrians who are members.

Built with: (JavaScript, CSS, and HTML)

- Implemented a user interface to be easy to navigate and provide clear information about the club's services and activities.
- Created an About Us page that provides an overview of the club's history, mission, and values.

Other Relevant Experience:

Self-Employed

09, 2022 – Present

Freelancer

- Successfully converted Figma designs into scalable, responsive, multi-platform and SEO-friendly websites.
- Utilized HTML, CSS, JavaScript, and React to build landing pages and websites for events.
- Optimizing website and web application performance, including page load times and search engine rankings.
- Continuously researching and staying up-to-date with the latest front-end development technologies, frameworks, and best practices.
- Delivered exceptional web applications to over 20 satisfied clients.

MICROVERSE

Remote Full-Stack Web Development Student and Mentor

Remote

05, 2022 – 01, 2023

- Mastered intermediate and advanced topics in full-stack development (including Rails, Git, and DS&A challenges) while building multiple full-stack projects both independently and via pair programming.
- Mentored a group of five junior web developers, and provided technical support to achieve concrete goals on a strict deadline.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

STAR SAMU

Billing supervisor

Marrakesh, Morocco

11, 2020 – 04, 2022

- Implemented new and efficient processes for invoicing, payment tracking, and follow-up, which resulted in increased on-time payment rates and increased billing accuracy.
- Trained and managed a team of two billing specialists who were responsible for sending invoices to clients and collecting payments.

EDUCATION

META

Front-End Developer Professional Certificate

- Developed expertise in a variety of front-end technologies including HTML, CSS, JavaScript, and React, and learned how to use these technologies to build and maintain responsive and user-friendly websites and web applications.
- Learned best practices for user experience.

MICROVERSE

Remote Full Stack Web Development Certificate, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard Gitflow, and daily standups to communicate and collaborate with international remote developers.
