SUMMARY

I am a full-stack web developer with a passion for building intuitive and visually stunning applications. I have a strong foundation in front-end and back-end technologies and enjoy collaborating with cross-functional teams to bring projects from concept to deployment. Whether I'm working on a small website or a large web-based application, I am always striving to create the best possible user experience.

SKILLS

Front-End: JavaScript, React, HTML5, CSS3
Back-End: Ruby, Rails, MySQL, Node.js
Tools & Methods: Git, GitHub, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools
Professional: Remote Pair-Programming, Teamwork, Mentoring

PROJECTS

To-do list — TodoList web application, where the users can add new, remove, edit, mark as completed and remove all tasks.
- Built with: (HTML, CSS, API, and JavaScript)

Awesome books — Awesome Books is a useful reading list application. Store your favorite books and their respective authors in the local storage so you can keep track of them and read them anytime you want.
- Built with: (HTML, CSS, Local storage, JavaScript)

Leaderboard — A TV list web app, that shows the number of movies and displays info about the movie, also you can like or add a comment to each movie.
- Built with: (HTML, CSS, and JavaScript)

EXPERIENCE

Full-Stack Web Development Student   06, 2022 – Present
Mastered intermediate and advanced topics in full-stack development (including Rails, Git, and DS&A challenges) while building multiple full-stack projects both independently and via pair programming.

MICROVERSE

Remote
06, 2022 – 08, 2022

Mentor (Volunteer)
- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

STAR SAMU

Marrakesh, Morocco
11, 2020 – 04, 2022

Billing supervisor
- Trains and oversees employees involved in billing functions.
- managing a team of billing specialists who are responsible for sending invoices to clients and collecting payments.

EDUCATION

META

Front-End Developer Professional Certificate
- Developed expertise in a variety of front-end technologies including HTML, CSS, JavaScript, and React, and learned how to use these technologies to build and maintain responsive and user-friendly websites and web applications.
- Learned best practices for user experience.

MICROVERSE

Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard Gitflow, and daily standups to communicate and collaborate with international remote developers.
